

## ENGL-2030 Reflection

William Chen

5/7/2022

ENGL-2030-401

I effectively cooperated with the class and classmates by being present in the class and collaborating with other groups in the group project. The quality of the sources used were valid because they were from a credible source. I exerted a decent amount of effort during the duration of this course, I had to be attentive in class, and outside of class. I used my endless wit to come up with the captions for the blob cartoons. I have learned a lot about linguistics throughout the duration of this course.
