

Thunderstorms

The dangers of thunderstorms

People often wonder what the dangers of thunderstorms are

- Lightning
- High Winds
- Heavy Rain
- Flash Floods

Here are some ways we can be safe when there is a thunderstorm happening

- Avoid water because lightning can travel through plumbing
- Avoid electrical equipment
- Avoid corded phones
- avoid concrete floors and walls
- Come up with a plan if a thunderstorm happens
- Have food that doesn't expire and water

What can we do to be safe?
